

Water filter cartridge Metos Bestmax M

Produktdata

Varenummer	4136522
Varenavn	Water filter cartridge Metos Bestmax M
Størrelse	Ø130 x 475/500 mm
Vægt	2,400 kg
Teknisk informasjon	KV: 3/8"

Beskrivelse

With BestMax water filter, the amount of particles and undesirable odors and flavors decreases effectively, making the taste of the drinks the best possible. As a benefit, the functionality of the device improves, removes mud and particles, reliable lime protection.

The 22.785-9114 litres capacity of the cartridge is calculated according to water hardness of 2-5 °dH as well as the carbonate hardness of the water as the valve bypass is set to the coffee machine according to the recommendation 3.

- water temperature 4-30°C
- weighs 4,2 kg when wet
- 5-stage filtration
- highly efficient limescale protection
- additional filtration of bypass water
- easy filter replacement process
- vertical or horizontal installation
- automatic water stop valve during filter replacement
- the capacities may fluctuate by up to ± 5 % depending on the local

water quality and flow speed

- standard bypass setting = 1. The bypass setting "0" should be chosen for appliances that are very sensitive to scale. As a result, the typical capacities reduce by 10 %. The capacities may fluctuate by up to ± 5 % depending on the local water quality and flow speed.

Accessories:

- connection hose 1500mm
- aquameter
- hot drinks test kit to determine the carbonate hardness and total hardness of drinking water
