Vertical cold display Metos Luxor KP8V

Produktdata

Varenummer	4310737
Varenavn	Vertical cold display Metos Luxor KP8V
Størrelse	805 × 645 × 1840 mm
Vægt	225,000 kg
Kapasitet	490 litrer
Teknisk informasjon	230 V, 0,55 kW, 1NPE, 50 Hz
Kjølemedie	R290

Beskrivelse

Metos Luxor KP8V is an elegant, innovative and adaptable vertical slim display that creates an attractive and exclusive environment for the products sold. In addition to the walls and shelves that are made of hardened glass, the barely noticeable shelf support system allows for an unobstructed view of the products inside the display.
The Metos Luxor KP8V vertical display is intended for storing confectionery products and drinks. Equipped with five (700x470 mm) glass shelves, shade adjustable LED-lights and a right hinged door, the vertical cold display creates a clear and light frame for products. The display's cold area can be set to between +2°C...+10°C. The display has a cooling system with a fan, which distributes the air evenly across the whole area.
The display's frame is covered with white (RAL 9010) silk printing. The lower part of the frame masterfully hides the wheels, enabling the easy movability of the display. The display has an automatic melting and

water evaporating system.
- five glass shelves (700x470 mm), weight limit 12 kg/per shelf
- cold area +2°...+10°C
- right hinged door
- LED-lights at the corners, shade adjustable between 3000-6000K
