Beskrivelse

Small enough to be put on a table Metos Microgel 2 ice cream scoop display is a stylish serving unit. Ice cream scoop display can fit two 5-litres ice cream packs.

Thanks to its compact size and clear design this ice cream showcase can be put for instance on a dessert table, where the customers can scoop their portions themselves. The LED-light inside brings attention to the ice cream and the plastic cover provides a great view inside the freezer, reducing its unnecessary opening and thus keeping the cool air inside the device.

This ice cream display is with adjustable temperature from -15 to -18°C. Easy-to-use electronic thermostat is equipped with a temperature display. Control panel is located on the user's side and is easy to reach. Control panel will show the message if the cooler filter needs cleaning, which can be easily done. The stainless steel frame of the device and its plastic sides and cover are easy to clean.
