

Flaker Ice maker Metos B125 AX AG

Produktdata

Varenummer	4173140
Varenavn	Flaker Ice maker Metos B125 AX AG
Størrelse	567/605 × 551/570 × 535 mm
Vægt	50,000 kg
Kapasitet	isproduktion 130 kg / 24 h
Teknisk informasjon	220-240 V, 10 A, 0,570 kW, 1NPE, 50 Hz KV: 3/4" Avløp tilkobling: ø Ø 20
Kjølemedie	R290
Mængde kølemiddel, g/kg	60
Kjøleeffekt, W	634

Beskrivelse

Metos B-series ice makers are efficient ice machines with a separate ice container. Optimal ice storage can be guaranteed, as ice cubes fall directly into a separate ice tank when they are ready. The humidity of the ice flake is adjustable. This allows for the presentation of orthodox food, the transport of fresh produce, and usage in wellness spas. This is why the B-series' ice machines are perfect for spas, restaurants, hotels, grocery stores and bakeries.

Special attention has been paid to the hygiene and ease of use in the design of the machines. The internal cleaning and maintenance of the machine is also effortless due to easy access. The frame of the machine is made of wear-resistant and easy-to-clean stainless steel. The

controls of the machines work electronically, which allows the detection of malfunctions and can be used to determine the efficiency of the machine.

- air condensation
- the humidity of the ice flake
- stainless steel frame
- automatic washing system
- environmentally friendly R290 as refrigerant

DELIVERY INCLUDES:

- pressurized water hose
- drain hose

FACTORY OPTIONS (to be ordered with the machine):

- ozone programmable sanitation cycle

The capacity values have been calculated under conditions where the room temperature is 10°C and the water temperature is 10°C. If the water used is warmer, the output of the machine will decrease.
