

## Cold display Metos Teatro 1FOC1200-900 L

### Produktdata

Varenummer	4312812
Varenavn	Cold display Metos Teatro 1FOC1200-900 L
Størrelse	1200 × 750 × 1208 mm
Vægt	162,000 kg
Teknisk informasjon	220-240 V, 10 A, 0,9 kW, 1NPE, 50 Hz
Kjølemedie	R290
Mængde kølemiddel, g/kg	140

### Beskrivelse

Metos Teatro is a stylish service display that brings out the products in an attractive and selling way. The bright LED lighting of the display is evenly distributed throughout the display area and highlights the colors and delicacy of the products well. The height of the display also allows good visibility between the seller and the customer. Thanks to its sloping back, the seller can easily reach to pick up products from the front of the display as well. Products for sale can also be placed on top of the display.

The display also has plenty of refrigerated storage space for supplementary products. At the bottom there is a GN1/1 -sized refrigerator and 2 GN1/1-150 drawers.

The display section has an adjustable fan speed. The temperature range in the display is adjustable between + 4°C ... + 8°C. The storage temperature of the refrigerator and drawers is + 5°C. The dimensions of

the large product level are 530x1180 mm, which means that the dimension corresponds to 3xGN1/1. The level is 90 cm above the floor. The front of the level has a removable low stainless steel protective edge that prevents products from being placed on top of the air grid. The display can be recessed in the line or placed freely in the sales area.

When placed free-standing, we recommend ordering kick plates covering the base section of the display.

The display part is tempered 6 mm glass, the rest is made of stainless steel.

**DELIVERY INCLUDES:**

- A pair of GN runners in the refrigerator
- ACCESSORIES (to be ordered separately):**
- stainless steel kick plates
  - GN-containers
  - hatches on the seller's side
